[22/363] build/bootloader/CMakeCache.txt

```

# This is the CMakeCache file.
# For build in directory: c:/Users/kdg57/esp/esp32_test/build/bootloader
# It was generated by CMake: C:/Users/kdg57/.espressif/tools/cmake/4.0.3/bin/cmake.exe
# You can edit this file to change values found and used by cmake.
# If you do not want to change any of the values, simply exit the editor.
# If you do want to change a value, simply edit, save, and exit the editor.
# The syntax for the file is as follows:
# KEY:TYPE=VALUE
# KEY is the name of a variable in the cache.
# TYPE is a hint to GUIs for the type of VALUE, DO NOT EDIT TYPE!.
# VALUE is the current value for the KEY.
